

AGL Gas Import Jetty Project

Jay Gleeson,
Community Relations Manager

LNG import facility

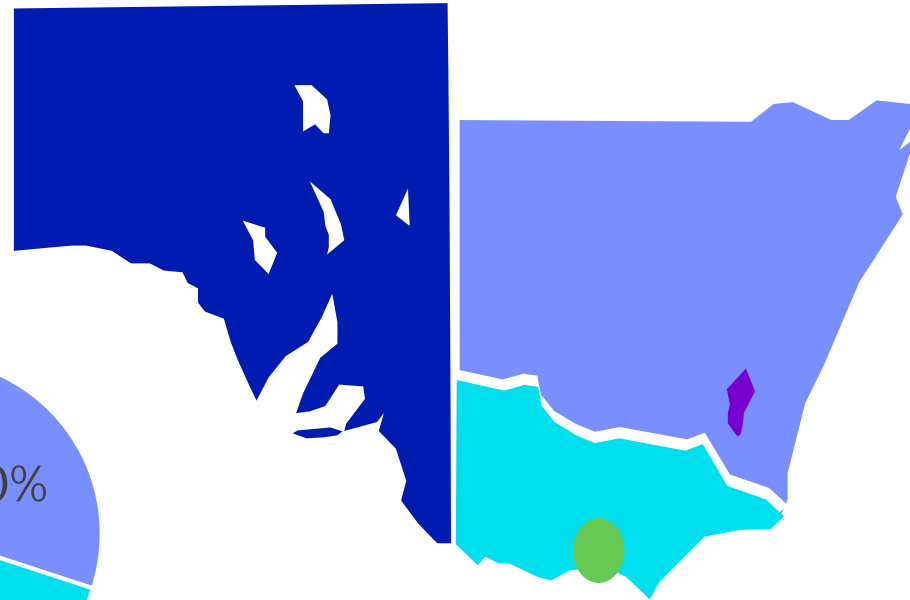

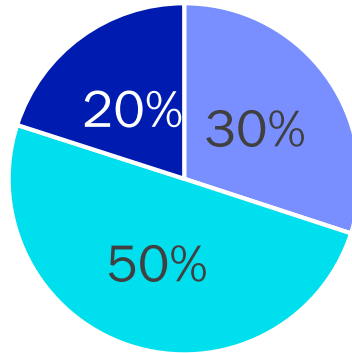

- > AGL investing \$17M to ready project for final investment decision in 2018
- > Preferred site identified
- > First gas by 2020/2021
- > Regulatory and community engagement commenced

Westernport, Crib Point is the preferred site

Provides infrastructure, access to key demand centre and minimal network modifications

- Lowest cost to access largest southern market
- VIC gas demand is as much as NSW & SA combined
- Existing deep water jetty
- Minimal pipeline network modifications to access market
- Targeting FID by Q2 2018

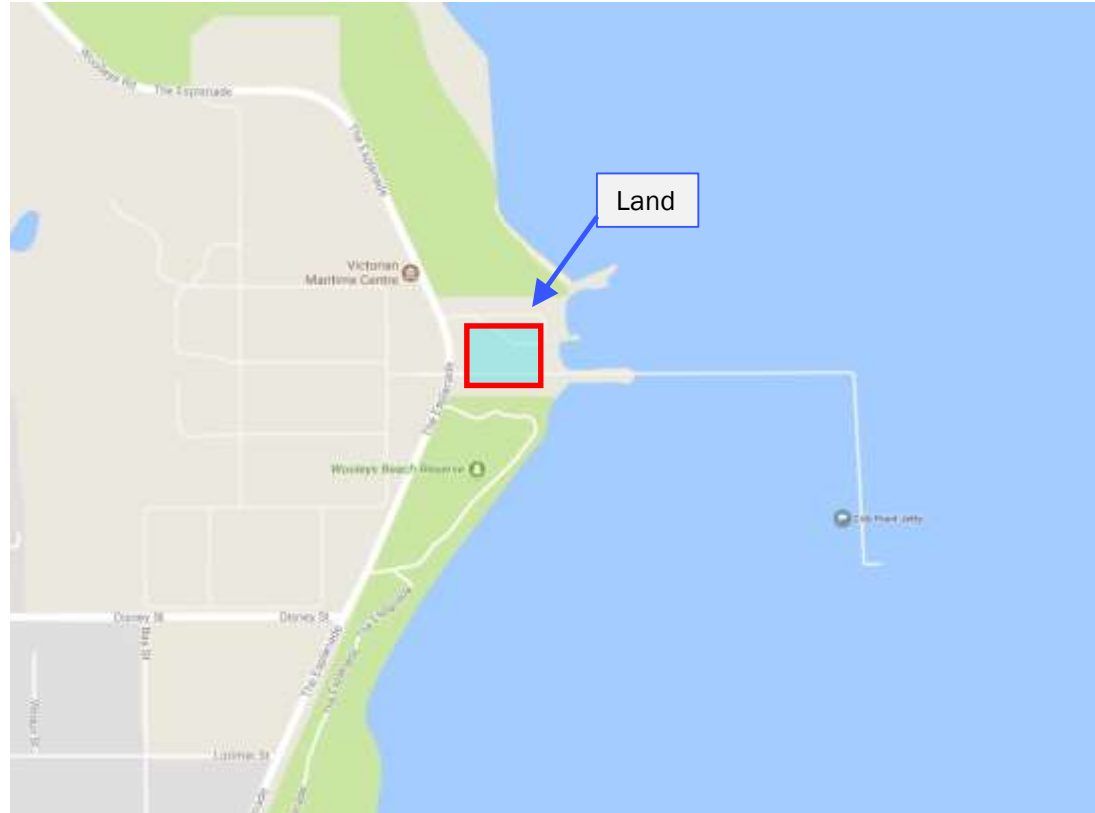

Crib Point, Westernport

Port facility (AGL would use Berth 2)

Envelope of land required for Project Spirit

Metering, pumps, access etc

FSRU

Floating Storage and Regassification Unit
